Annual Report to the National Security Council

on the Status of the Foreign Intelligence Program

Reference: IAC-D-55/12, (Final) 3 September 1957

1. The first draft of the annual report to NSC on the status of the Foreign intelligence program is forwarded herewith for review. It is anticipated that a proposed section on the Clandestine Collection program will be available for distribution following further internal CIA clearances. We expect to add an Annex on NSCID's relevant to the activities discussed, similar to Annex A of last year's report, and to prepare a summary following coordination of this report.

2. Because of the NSC deadline and the rather extensive coordination required for this paper, we plan to begin coordination sessions on Wednesday, 20 August. Will you therefore please send representatives to a coordination session on that date at 2:00 p.m. in Room 154 Administration Building, CIA. Since we plan to begin by considering Section A (Organization, Integration and Coordination), Section B (Warning of Attack) and Section C (Evaluation and Estimates), those representatives whose contributions fall exclusively within Section D (Collection) need not plan to be present at the initial session. If those representatives who are solely concerned with Section C will give the IAC Secretariat [redacted] their name and telephone number, we can advise them when we expect Section C to be discussed. In this connection our present plan is to continue with morning and afternoon coordination sessions on Thursday and Friday (21 and 22 August).
